

Multiplication Table

x	0	1	2	3	4	5	6	7	8	9	10
0	0	0	0	0	0	0	0	0	0	0	0
1	0	1	2	3	4	5	6	7	8	9	10
2	0	2	4	6	8	10	12	14	16	18	20
3	0	3	6	9	12	15	18	21	24	27	30
4	0	4	8	12	16	20	24	28	32	36	40
5	0	5	10	15	20	25	30	35	40	45	50
6	0	6	12	18	24	30	36	42	48	54	60
7	0	7	14	21	28	35	42	49	56	63	70
8	0	8	16	24	32	40	48	56	64	72	80
9	0	9	18	27	36	45	54	63	72	81	90
10	0	10	20	30	40	50	60	70	80	90	100

1. Cut out the shape along the solid black line (cut as precisely as possible)
2. Place the **number 0** on the shape next the **number in the multiplication table** that you want to practice (for example, 5)
3. Answer the multiplication problem (what is 5×0 ?) then **move the shape down one row** to check your answer (0)
4. **Solve the next problem** in the series immediately to the *right* of the problem you've answered (what is 5×1 ?)
5. Continue **moving the shape down one row** each time you solve a problem to uncover the answer
