

# **Candy Box Math Game**

**Yvonne and Brian Crawford**

# Instructions

## Odd and Even Candy Boxes

1. Print out the page of chocolates. Cut out each chocolate individually and place the lot of them in front of you on the table.
2. Place all of the *even* numbered chocolates into the picture of the candy box.
3. Remove the chocolates and place all of the *odd* numbered chocolates into the candy box. See how quickly you can do it!

## A Nicely Ordered Candy Box

1. Print out the page of chocolates. Cut out each chocolate individually and place them all in front of you on the table.
2. Starting with chocolate number 1, place all of the chocolates *in order* into the picture of the candy box.
3. Find out: How many candies you were able to fit into the box? How many candies were left on the table?
