

Can you count to **100**? I think I can. 1, 2, 3, 4, 5, 6, 7, 8... Wait, why don't you count with me? Look at the numbers in the box below and count to 100 with me!

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Want to try a challenge? Try to use the chart above and count by **twos**. When you count by twos, it means that you skip every other number... so you would start by saying: 2, 4, 6, 8, 10. If you need a little help, you can color every other number in the chart yellow, starting with number 2. Then read all of the yellow numbers on the chart to count by twos!

Fill in the missing numbers!

1	2	___	4	5	6	___	8	9	___
___	12	13	14	___	___	17	18	___	20
