

Five, Seven, Then Five

I like poetry
But I **really** like haikus!
They're fun to create

Haikus have **three lines**
The first has **five syllables**
The second? **Seven**

What about the third?
That has **five syllables**, too
Same as the first line

Do you like haikus?
If so, why not write your own?
They're easy to make

Five, seven, then five
Pick any topic you like
And **be creative!**
